

Welcome to the Asian Society for Psoriasis!

As a preliminary step, we were made a plan to hold "The Tokai International Psoriasis Summit 2014 (the TIPS 2014)". We believed that to hold such a meeting must be have to useful and variable for the development of future research with keeping the friendship and introduction of research activities of each other.

However, the TIPS 2014 was not held by any support from societies and sponsored special funds, but it became held with research funds of Tokai University only. Namely, we wanted to be able to discuss without any bias from pharmaceutical companies etc. at the TIPS 2014. The TIPS 2014 had two main objectives in mind. One goal was to get "To Know Others" and the other was To Do Something Together".

After that, the Asian Summit for Psoriasis (the ASP 2016, the president: Dr. YOUN Jai Il) in Seoul, Korea and the International Psoriasis Symposium at the 5th Eastern Asia Dermatology Congress (the EADC 2018, the president: Dr. ZHENG Min) in Kunming, China were held with an extension of the same spirit in the meeting of TIPS 2014.

And more over, many International Meetings for Psoriasis were held in Asian region (ex. the Chinese Psoriasis Conference, the President: Dr. ZHANG Xuejun, the Xi'an International Psoriasis Symposium, the president: Dr. WANG Gang, Asian Psoriasis Symposium by the Annual Meetings of the Japanese Society for Psoriasis Research, Korea-Japan Joint Meetings for Psoriasis by the Korean Society for Psoriasis, and so on.

From results in this several years, first strengthen the psoriasis research activities in the Asian region, academic and global organization making was, we have been expected to go is constructed with help of each country of Psoriasis Society.

And in 2019, the Asian Society for Psoriasis was established according to the result of meeting on Dec. 2018 at Beijing, China.

We would like to ask you for joying to the Asian Society for Psoriasis, and giving us your cooperation and support in future work continuously, by all means.

Let us Study to know others and to do something together as to Psoriasis!

(January 1, 2019)
